

Osiris to open Cyprus Office

Introduction

We are happy to announce that Osiris is in the process of opening a new office in Nicosia in Cyprus. Cyprus joined the EU in 2004 and has since become one of the preferred locations for holding companies and finance companies in Europe.

Its 10% corporate tax rate, absence of CGT and withholding taxes and combined with its 105 double tax treaties make this location hard to beat in that role. Cypriot companies are also able to avail themselves of the EU parent subsidiary directive.

Osiris will initially offer only corporate formation and administration services, but the intention is to develop this into a fully holding and finance company facility in the near future.

We will keep you advised of new developments over time.
